INDEX TO VOLUME LXXVII

SUBJECTS

PAGE

Absolute Magnitudes, Some Effects of Changes in Stellar Temperatures and. *W. W. Morgan* 291

Abundance of Elements in the Lower Chromosphere, Relative Distribution and. *S. A. Mitchell and Emma T. R. Williams* 1

52 π Aquarii, A Note on the Periods of the Be Spectrum Variables H.D. 20336 and. *Dean B. McLaughlin* 221

21 Aquilae, On a Line at λ 4470 in the Spectrum of. *W. W. Morgan* . . 226

Astrometry with Mirrors and Lenses. *Frank E. Ross* 243

B.D.+33°1008 Aurigae, Note on the Spectrum of. *Christine Westgate* . 227

Band Spectrum of Nitrogen, On the Modification of the Intensity Distribution in the. *J. Okubo and H. Hamada* 130

Be Spectrum Variables H.D. 20336 and 52 π Aquarii, A Note on the Periods of the. *Dean B. McLaughlin* 221

Bright Helium Lines, Four Stars Whose Spectra Have. *Paul W. Merrill* 44

Bright Sodium Lines in a Stellar Spectrum. *Paul W. Merrill* . . . 51

γ Cassiopeiae, The Width of Bright *H*α in. *O. Struve* 66

Chromosphere, Relative Distribution and Abundance of Elements in the Lower. *S. A. Mitchell and Emma T. R. Williams* 1

Chromosphere from Fixed and Moving Plates, Heights in the. *S. A. Mitchell* 157

Color Indices and Integrated Magnitudes of Fifteen Bright Globular Clusters. *A. N. Vyssotsky and Emma T. R. Williams* 301

Colors of Diffuse Nebulae Having Continuous Spectra, On the. *O. Struve, C. T. Elvey, and P. C. Keenan* 274

P Cygni, A Note on the Intensities of *He* I in. *Harold F. Schwede* . . 348

73 Draconis, A Study of the Spectrum Variable. *W. W. Morgan* . . 77

Equivalent Widths in the A and B Bands of Oxygen. *W. H. J. Childs* . 212

Gegenschein, Photometry of the. *C. T. Elvey* 56

Globular Clusters, Colors Indices and Integrated Magnitudes of Fifteen Bright. *A. N. Vyssotsky and Emma T. R. Williams* 301

Hα in γ Cassiopeiae, The Widths of Bright. *O. Struve* 66

Hα in Rigel, Variability of. *O. Struve and F. E. Roach* 226

He I in P Cygni, A Note on the Intensities of. *Harold F. Schwede* . . 348

Heights in the Chromosphere from Fixed and Moving Plates. *S. A. Mitchell* 157

Helium Lines, Four Stars Whose Spectra Have Bright. *Paul W. Merrill* . 44

Hydrocarbon Bands in the Solar Spectrum. *R. S. Richardson* 195

PAGE

Hydrogen in the Spectrum of Rigel, An Emission Line of. *O. Struve* . 67
Hydrogen Lines in the Spectrum of H.D. 31293, Variations in Structure of the. *Paul W. Merrill and Cora G. Burwell* 103
Hydrogen Sulphide, On the Spectrum of. *Norman O. Stein* 270
Mirrors, Evaporated Films for Large. *Robley C. Williams and George B. Sabine* 316
Mirrors and Lenses, Astrometry with. *Frank E. Ross* 243
U Monocerotis, On the Spectrum and Radial Velocity of. *Roscoe F. Sanford* 120
Nebulae, Note on the Surface Brightnesses of Elliptical. *Philip C. Keenan* 283
Nebulae Having Continuous Spectra, On the Colors of Diffuse. *O. Struve, C. T. Elvey, and P. C. Keenan* 274
Nitrogen, On the Modification of the Intensity Distribution in the Band Spectrum of. *J. Okubo and H. Hamada* 130
*N*v in Stellar Spectra, Absorption Lines of. *Cecilia H. Payne* . . . 299
α Orionis from 1923 to 1931, The Variation in the Radial Velocity of. *Roscoe F. Sanford* 110
Oxygen, Equivalent Widths in the A and B Bands of. *W. H. J. Childs* . 212
Peculiar Branch of the Spectral Sequence in the Interval B8–Fo, Some Evidence for the Existence of a. *W. W. Morgan* 330
Photographic Magnitudes, A Comparison of the Yerkes and the Greenwich. *Sture Holm* 229
Proper Motion, Investigations on. *Adriaan van Maanen* 186
Radial Velocity of α Orionis from 1923 to 1931, The Variation in the. *Roscoe F. Sanford* 110
Radial Velocity of U Monocerotis, On the Spectrum and. *Roscoe F. Sanford* 120
Reviews:
Bacher, Robert F., and Samuel Goudsmit. *Atomic Energy States as Derived from the Analysis of Optical Spectra.* (H. N. Russell) . . 350
Boll, Marcel. *Exposé électronique des lois de l'électricité* (F. C. Hoyt) . 75
Boll, Marcel. *L'idée générale de la mécanique ondulatoire et de ses premières applications* (F. C. Hoyt) 76
Born, Max. *Optik: Ein Lehrbuch der elektromagnetischen Lichttheorie* (Carl Eckart) 351
Brillouin, Léon. *Die Quantenstatistik und ihre Anwendung auf die Elektronentheorie der Metalle: Struktur der Materie in Einzeldarstellungen,* Vol. 13 (F. C. Hoyt) 354
de Broglie, Louis. *Théorie de la quantification dans la nouvelle mécanique* (F. C. Hoyt) 74
Bruhat, Georges. *Le Soleil* (Philip C. Keenan) 69
Crook, Welton J. *Table of Arc Spectrum Lines Arranged in Order of Wave-Length 2785 A.U.—3505 A.U.* (F. E. Roach) 353

PAGE

Goudsmit, Samuel, and Robert F. Bacher. *Atomic Energy States as Derived from the Analysis of Optical Spectra* (H. N. Russell) . . 350
Hay, Alfred. *Handbuch der wissenschaftlichen und angewandten Photographie* (G. Van Biesbroeck) 71
Herzberger, M. *Strahlenoptik* (F. E. Ross) 73
Humphreys, W. J. *Physics of the Air* (C. T. Elvey) 74
Jevons, W. *Report on Band Spectra of Diatomic Molecules* (R. S. Richardson) 300
Mathematical Tables, Vol. 2 (W. D. MacMillan) 228
Mitchell, S. A. *Eclipses of the Sun* (P. C. Keenan) 69
Payne, Cecilia H. *The Stars of High Luminosity.* (W. W. Morgan) . 72
Rigel, An Emission Line of Hydrogen in the Spectrum of. *O. Struve* . . 67
Rigel, Variability of $H\alpha$ in. *O. Struve and F. E. Roach* 226
Rotational Broadening of Stellar Absorption Lines in Classes B and O, A Statistical Study of the. *Christine Westgate* 141
Saha Equation, A Note on the Value of the General Constants of the. *Raymond T. Birge* 63
Scandium Oxide Bands in Stellar Spectra. *N. T. Bobrovnikoff* . . . 345
Scattering in Interstellar Space, Rayleigh. *Otto Struve* 153
Sodium Lines in a Stellar Spectrum, Bright. *Paul W. Merrill* . . . 51
Solar Spectrum, Hydrocarbon Bands in the. *R. S. Richardson* . . . 195
Spectroscopic Binaries, The Orbits of Two. *William H. Christie* . . 310
Spectrum of B.D.+33°1008 Aurigae, Note on the. *Christie Westgate* . 227
Spectrum of the Bo Star 23 τ Scorpii, The. *O. Struve and T. Dunham, Jr.* 321
Spectrum Variables 73 Draconis, A Study of the. *W. W. Morgan* . . 77
Spectrum Variables H.D. 20336 and 52 π Aquarii, A Note on the Periods of the Be. *Dean B. McLaughlin* 221
Stellar Temperatures and Absolute Magnitudes, Some Effects of Changes in. *W. W. Morgan* 291
Surface Brightnesses of Elliptical Nebulae, Note on the. *Philip C. Keenan* 283
Two Bodies with Variable Masses, The Problem of. *William Markowitz* 337
